---

## **Requirements:**

- Appropriate care/maintenance must be provided for your puppy at all times; this includes all medical/health care, training, clean & stable living conditions (food, water, shelter, etc.)
- You must provide your puppy with monthly heartworm worm prevention, year round.
- You must register your puppy with the AKC before 12 months of age; "TLCL" or "CLan" must be included in your puppy's registered name.
- Mandatory spay/neuter is not required, however; spay/neuter procedures are not permitted on your puppy until 12 months of age or older; failure to comply will forfeit the 26 mo. Health Guarantee.
- Your puppy is being sold to its "forever home". If in the event you can no longer provide/care for your puppy/dog for unforeseen reasons OR you are unable to abide by this contract's requirements, you as the buyer are required to return the puppy/dog to TLCL. All AKC papers, veterinary records, & microchip information will also be returned to TLCL. All shipping costs are the buyer's responsibility. No cash/money refunds will be made of any kind. Rehoming or reselling of this puppy is not permitted unless approved by TLCL in writing.
- Although NOT required, it is highly recommended to enroll your puppy in basic obedience training, puppy classes, etc. Check with your local kennel clubs, for enrollment.

## **NuVet Vitamins**

Your puppy has been started on a daily vitamin; NuVet Vitamin Plus. NuVet Vitamin Plus is an all-natural supplement that will boost the immune system and protect a growing puppy from many health hazards. It is recommended for your puppy to be continued on NuVet Vitamin Plus for all years of its life. Please refer to the NuVet Vitamin letter located in your puppy's Informational Folder for more information.

---

## **72 Hour Health Guarantee**

Your puppy is guaranteed to be in good health at time of pickup. Your puppy has received its first set of vaccinations, a series of de-worming, and a complete puppy health exam by a licensed veterinarian. Good health is defined in this guarantee as; free of serious/life threatening illness or genetic defects that will alter or end your puppy's life.

You are required to have your puppy thoroughly examined by a licensed veterinarian within the first 72 hours of receiving your puppy. If findings accrue by a licensed veterinarian you must notify TLCL immediately, before any treatment takes place. A written report by a licensed veterinarian explaining said findings must be submitted to TLCL in writing within the 72 hour time frame.

Once your puppy is deemed unhealthy, you are required to return your puppy to TLCL within 48 hours of diagnoses. Once your original puppy is returned, you can either choose to be replaced with a comparable puppy from the next available litter.

Serious/life threatening illness or genetic life altering defects **DO NOT** include:

Parvo/Corona/ Distemper Virus, Redundant/ Inverted Vulva, Thickness of coat/skin allergies, any/all mites, mange, bacteria and/or parasites (i.e. Giardia, Coccidia, Etc.), over/under bite or luxating patella's, Megaesophagus, hernias of any kind, undescended testicles, cherry eye/inverted eyelids, potential size of dog, slipped joints, death due to negligence.

---

## **26 Month Health Guarantee**

TLCL guarantees your puppy to be free of OFA graded; "Moderate to Severe" Hip Dysplasia for 26 months from the date of birth. Radiographs & OFA submission must be completed by the age requirements of 26 months. If in the event your puppy is determined to be officially diagnosed with "Moderate to Severe" Hip Dysplasia, you will be replaced with a comparable puppy from the next available litter. No money/cash refunds will be made.

Written test results provided from OFA and all veterinary records from day of purchase of your puppy are required to be considered for a replacement puppy.

Nutritional & environmental factors also play a role in joint health. Poor nutrition & excess weight/obesity can contribute to dysplasia, as also injuries, which can be deemed as neglect.

If your puppy passes away or is diagnosed with a life altering disease or illness due only to genetics within 26 months of age, TLCL will replace your puppy with a comparable puppy from the first available litter.

**General Guarantee Stipulations:**

- TLCL does not make any guarantee or warranty to the puppy's personality or disposition.
- If you decline a replacement puppy for any given reason stated above, TLCL shall be under no further obligation and you will release TLCL from any/all further claims; therefore this health guarantee will be null & void.
- Original puppy must be returned to TLCL before replacement puppy will be provided unless conditional arrangements are made stated in writing by TLCL.
- If the replacement puppy value is more than original puppy value; the buyer is responsible for the value difference.
- All veterinary reports & records from day of purchase are required to be considered for a replacement puppy. It may take up to 2 years to provide a replacement puppy depending on availability.
- TLCL reserves the right to have the returned puppy examined by a licensed veterinarian of our choice at TLCL's expense. Should there be a discrepancy between both licensed veterinarian's final reports; TLCL's licensed veterinary reports/submissions shall control. (This includes OFA reports & submissions)
- This health guarantee will be null & void if there are any signs of abuse, neglect, or unapproved breeding determinable by TLCL. All diagnosis must be prior to 26 months of age, and documented by a licensed veterinarian.
- TLCL is not responsible for any treatment, procedures or vet cost while said puppy in buyers possession.
- Transportation, boarding costs and any veterinary fees are the sole responsibility of the buyer.
- No cash/money refunds will be made of any kind, unless approved & stated in writing by TLCL.
